

Step-by-Step Processes To Create Amazon Simple Notification Service

1. Create Topic

Step 1: Go to the Amazon SNS dashboard. Click on Create Topic button.

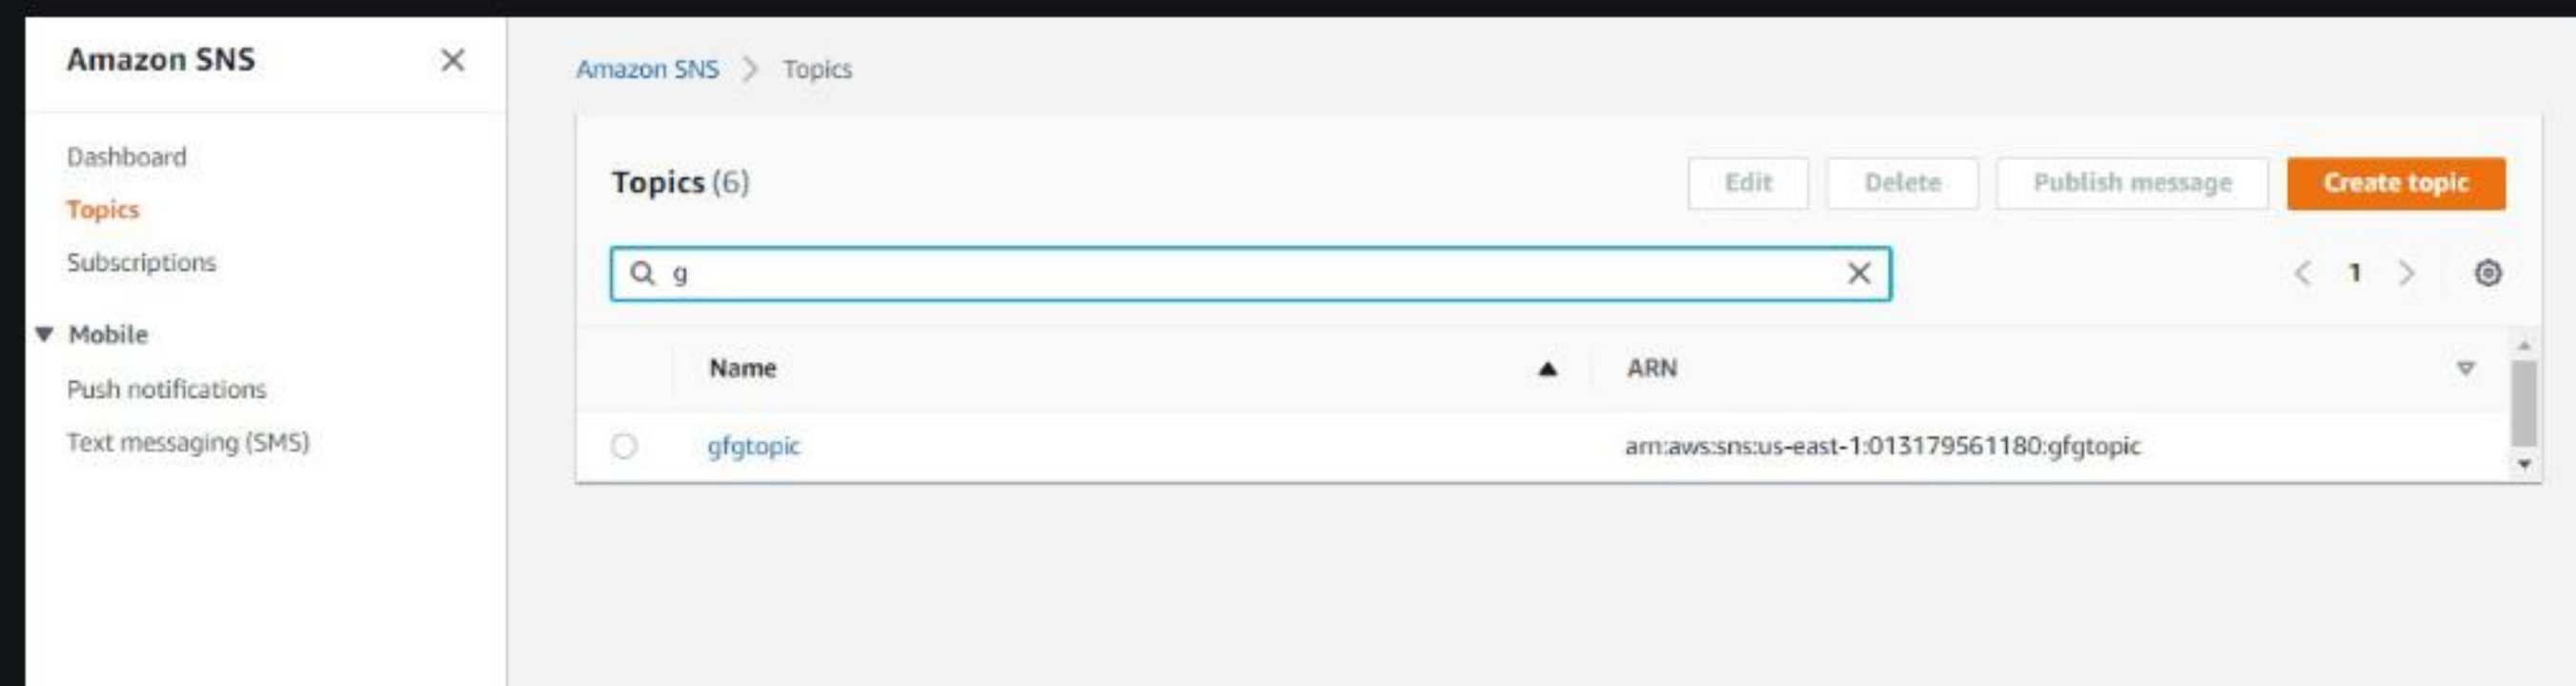

2. Give Display Name

Step 2: Type in the name of the topic and description(optional)

A screenshot of the 'Create topic' form in the Amazon SNS console. The breadcrumb trail at the top reads 'Amazon SNS > Topics > Create topic'. The form is titled 'Create topic' and has a 'Details' section. It contains two input fields: 'Name' with the value 'gfgtopic' and a note 'Maximum 256 characters. Can include alphanumeric characters, hyphens (-) and underscores (_).'; and 'Display name - optional' with the value 'GFG' and a note 'To use this topic with SMS subscriptions, enter a display name. Only the first 10 characters are displayed in an SMS message. Info.' followed by 'Maximum 100 characters, including hyphens (-) and underscores (_).'

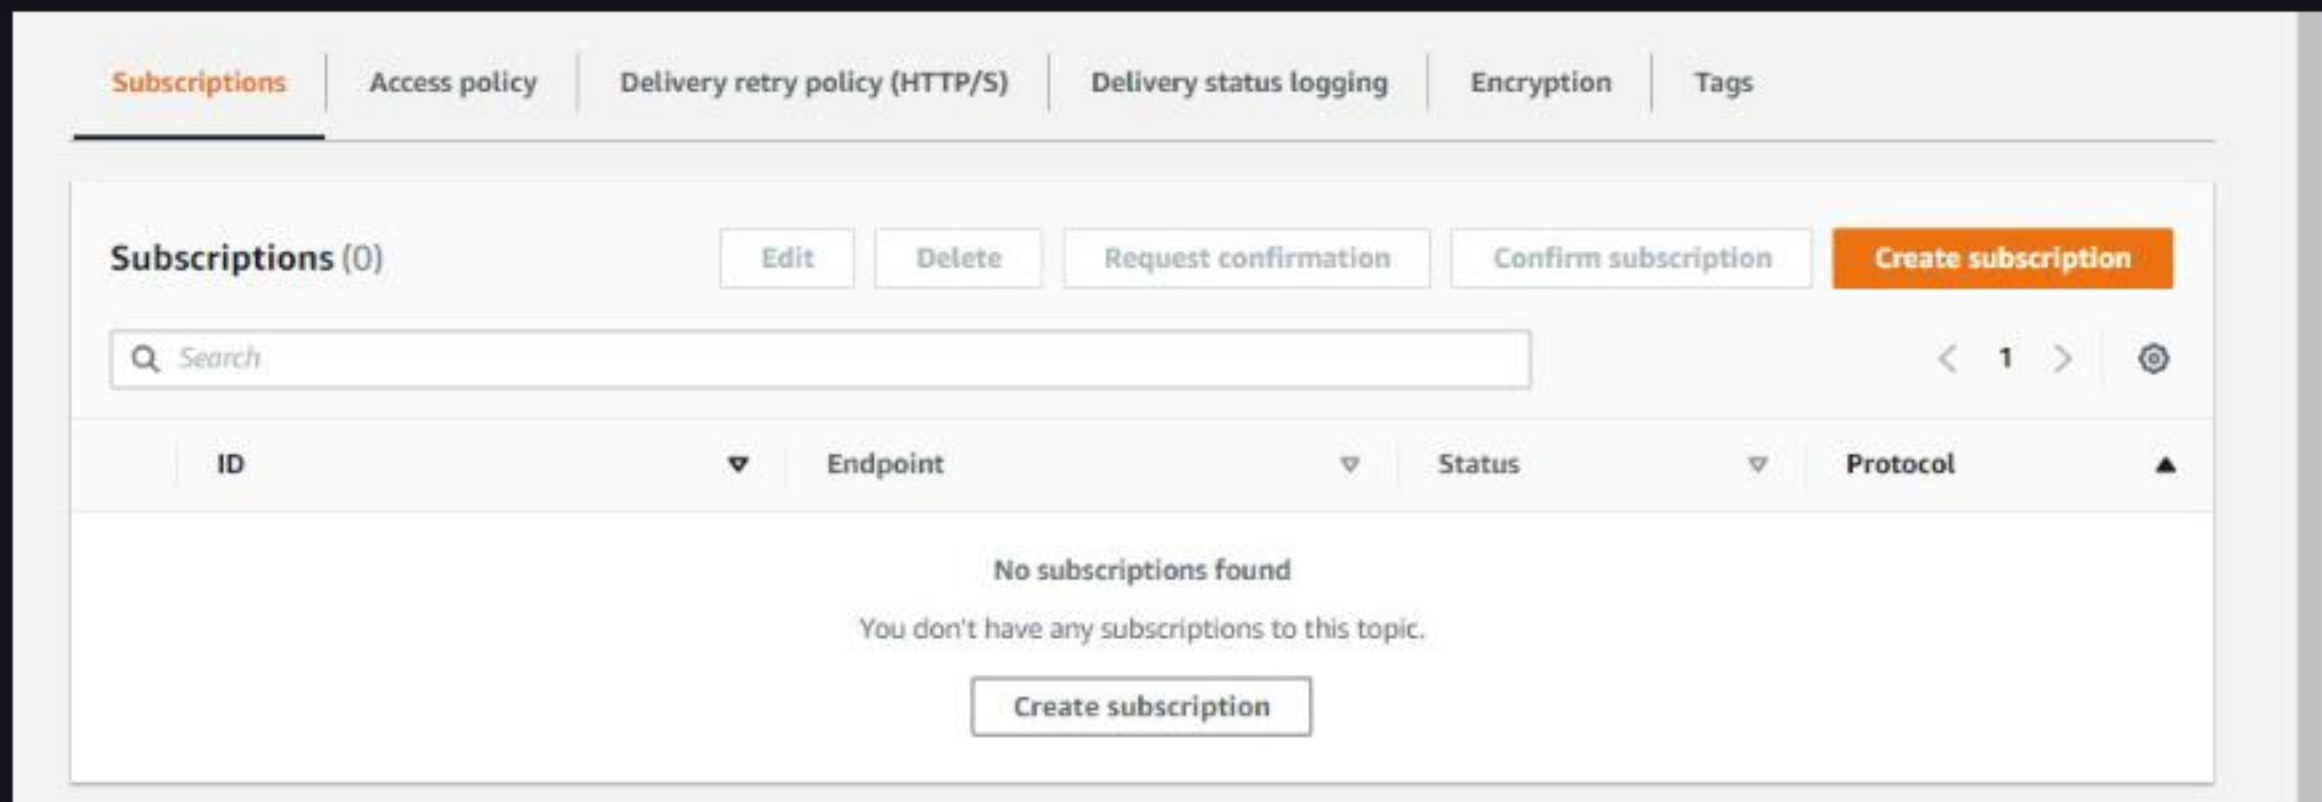

5. Topic Linking

Step 5: Go back to the SNS dashboard. The created topic is visible in the dashboard now. Click on the link to the topic.

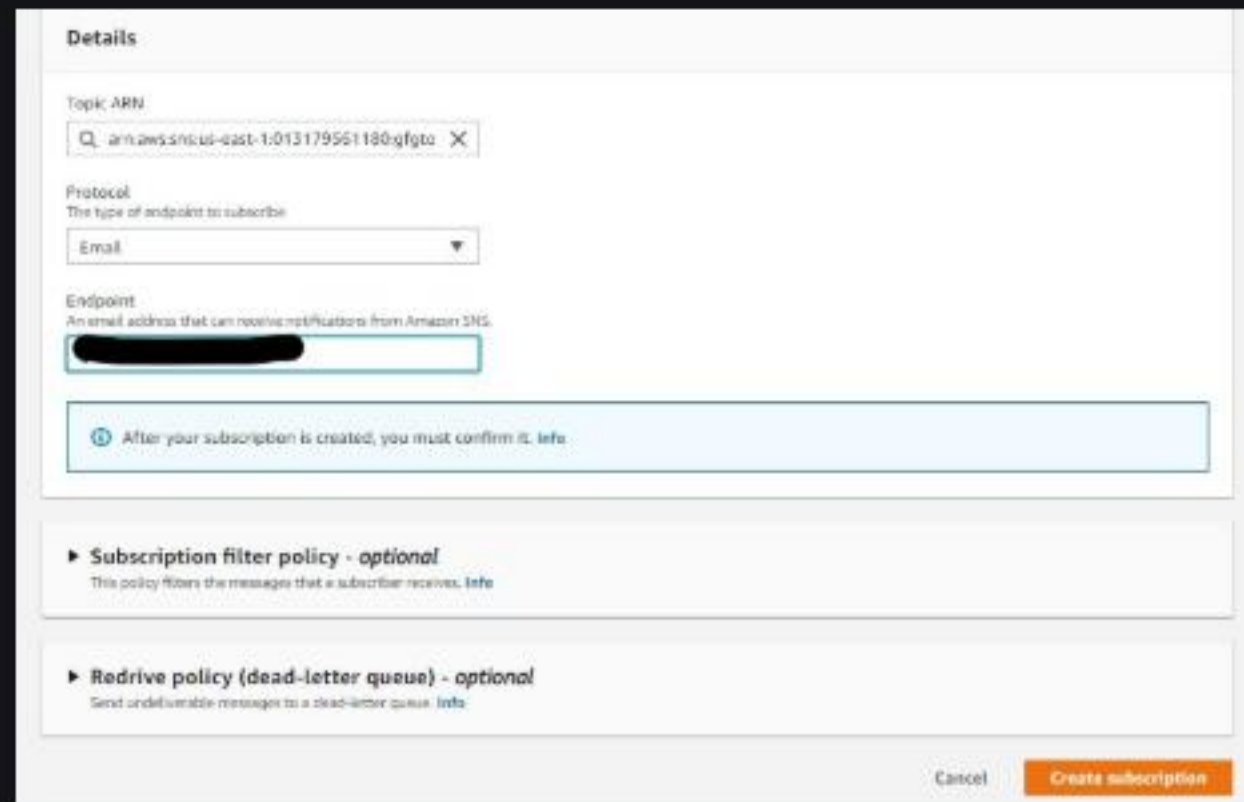

6. Create subscription

Step 6: You will be redirected to this page. Under subscription options, Click on Create subscription.

7.Configure Subscription

Step 7: Select the Protocol of the topic as Email and the endpoint of the topic as your email id. Click on Create Subscription.

The screenshot shows the 'Details' section of the AWS SNS console. It includes a 'Topic ARN' field with a search icon and a dropdown menu. Below it is a 'Protocol' dropdown menu set to 'Email'. The 'Endpoint' field is a text input containing a redacted email address. A light blue informational box states: 'After your subscription is created, you must confirm it. Info'. Below this are two optional sections: 'Subscription filter policy - optional' and 'Redrive policy (dead-letter queue) - optional', each with a brief description and a link to 'Info'. At the bottom right are 'Cancel' and 'Create subscription' buttons.

Details

Topic ARN
arn:aws:sns:us-east-1:013179561180:gfgto X

Protocol
The type of endpoint to subscribe
